SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Earthquake, New Britain, Papua New Guinea

On 05/14/19 at 0609 hours, a magnitude 7.5 earthquake occurred near New Britain, Papua New Guinea in the South Pacific at a depth of 6 Miles. There is **NO** tsunami threat or danger for California or the U.S West Coast.

- Originally reported at a M7.7 and was adjusted to M7.5 after evaluation by the United States Geological Survey (USGS).
- A Tsunami Information Statement was issued by the National Tsunami Warning Center (NTWC) that indicated there is no tsunami danger for California or the U.S. West Coast.
- The Cal OES EQTSU Duty Officer contacted the USGS on duty seismologist who indicated based on the earthquake information, and context of past earthquakes in the area this was a normal/oblique fault movement which is not the type of fault movement that produces a tsunami.
- The Cal OES EQTSU Duty Officer will continue to monitor the situation.

2019 Measles Outbreak

- Next MHCC situation report: 05/17/19 by 1700 hours.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

- Nothing significant to report.

9-1-1 Outages/Remote/Community Isolations:

- None reported.

Service Interruptions:

- None reported.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Dry and mild weather continues for most of the region today, then rain chances increase and spread southward Wednesday.
- The upper trough is forecast to move in later Wednesday night and Thursday turning precipitation more convective and leading to a better chance of thunderstorms along with bringing lowering snow levels to the northern Sierra.
- A late-season winter storm is expected to bring significant snowfall accumulations to the higher elevations of the northern Sierra Nevada and Mt Lassen area later Wednesday night into early Friday.

SOUTHERN CALIFORNIA

- An unseasonably cold Pacific storm system will bring a cool, wet weather pattern to Southwest California Wednesday night into Thursday. Widespread rain is likely across the area, with a chance of thunderstorms mainly north of Point Conception and over the mountains.
- Rainfall amounts are forecast to range from between 0.25 and 0.50 inches across the coasts and valleys, with up to 1 inch across the higher terrain. Local amounts in excess of 1 inch are possible under thunderstorms.

WEATHER KEY POINTS

05/14/19 - 05/20/19

Tuesday

- Dry conditions continuing today for most of the state
 - Rain showers and cooler conditions will arrive in far northwest CA through the day

Wednesday-Thursday

- Gusty winds expected across Southern Region and southern Inland Region Wed-Thu.
- Rain showers and cooler conditions will spread across northern and central CA Wednesday, and into southern CA by Thursday.
 - Strong storm for mid-May with potential for heavy rainfall Wednesday for Coastal and Northern Inland Regions
 - The potential for thunderstorms and periods of heavy rainfall spreads to Inland and Southern Regions for Wednesday night and Thursday
 - Snow levels will drop to 5,000-6,000 feet by Thursday, with significant impacts to travel likely in the Sierra due to accumulating snow, gusty winds, and reduced visibility

Friday-Monday

- Friday will be relative break in precipitation, though some isolated to scattered showers are still possible
- Another storm system will move into the Coastal and Inland Regions Saturday, with cooler weather and showery conditions lingering into Sunday and Monday
 - Additional thunderstorms will be possible across mainly the Inland Region Saturday into Sunday
- Gusty winds will be possible across portions of Southern Region, especially on Sunday and Monday

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2019-LAW-1683 05/13/19, 1238 hours:** The International Emergency Response Coordination Center (IERCC) contacted the State Warning Center with an InReach SOS activation at coordinates 35.349069, -118.295975 which plots on the Pacific Crest Trail in Kern County near Wheeler Ridge. There was no response to or from the registered owner. The device continued to move with no contact until 1802 hours when members of Kern County SO SAR intercepted the registered owner at the intersection of Paiute Mountain Road and the PCT. The registered owner was not aware that the device was activated; he was safe and continued with his hike. **MISSION CLOSED**
- **2019-LAW-1669, 05/10/19, 1449 hours:** Request from San Bernardino Sheriff's Office (SO) for Human Remains Detection (HRD) K9 mutual aid assistance with an ongoing search of Victorville Landfill for human remains. The requested days are for next week on the 14th, 15th and 16th. Request sent to the State Canine Coordinator. **UPDATE: 05/11/19:** San Bernardino requested to add on one additional day for 05/13/19. **UPDATE: 05/12/19:** K9 teams have been secured for 05/13/19 through 05/15/19 – still working on finding a team for 05/16/19. **MISSION ONGOING**

Cal OES MISSION TASKING

Cal OES Missions

- Nothing significant to report.

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
